

Take the
**4-minute
shower
challenge!**

Did you know that on average in the UK, each person takes a shower for around 8 minutes? Why not turn the shower off when lathering up to help save water and energy?

**If you've noticed a dripping shower,
tell a member of staff on site.**

Do you want to save water at home? Why not try our Get Water Fit calculator. Find out how much you could save and order free water saving products!
